## Notified body nº 1035

Delineator posts for the information, guidance, warning and direction of road users Type **D1**

<b>Delineator type: Cylindrical milestone H-75 - H75 Polymeric Base</b>	
Delineator type: D1 (PE) Cylindrical milestone H75, dimension 75 cm	Type of retroreflective device: R1 R1 - Color: White Class: RA3
<b>Resistance to horizontal loads</b>	
Static Requirements (wind load): WL2	
<b>Performance under vehicle impact (Passive Safety)</b>	
Dynamic impact requirement (material requirement): Pass Dynamic impact requirement (functional requirement): Pass Dynamic impact requirement (crash requirement): Not applicable	
<b>Resistance to impact (reflector)</b>	
Resistance to impact: DH2 for class RA3	
<b>Visual performance (Delineator)</b>	
Chromacity coordenates and luminancy factor: Not applicable	
<b>Visual performance (reflector)</b>	
Color: White	
<b>Daytime</b>	<b>Night-time</b>
Chromacity coordenates: R1, Clase 3 Luminancy factor: According	Chromacity coordenates: R1, Clase 3 Luminancy factor: According
Coefficient of retroreflection: R1, Clase 3	Coefficient of retroreflection: R1, Clase 3
<b>Durability: R1 (white)</b>	
Corrosion resistance: No aplicable Water resistance: According to RA3 class UV radiation resistance (natural aging test): According to RA3 class
